Experience

User Experience Intern

May 2023 – Aug 2023

Smarter IT Services

- Conducted usability testing to identify areas of improvement.
- Developed interactive prototypes to showcase proposed enhancements.
- Presented findings and design solutions to the project team.
- Created wireframes and prototypes for the redesigned interface.
- Implemented user feedback through iterations.

Tech Support Advisor

Feb 2020 – April 2023

General Motors | Oshawa

- Assist in the installation, configuration, and troubleshooting of various software applications.
- Collaborate with the IT team to escalate complex issues and coordinate with other IT teams for problem resolution.
- Spearheaded client support with repairs and resolving issues for General Motors luxury vehicles.
- Achieved monthly targets while respecting important deadlines.
- Diagnose and resolve hardware and software issues, ensuring minimum downtime and high user satisfaction.
- Active participation in team activities designed to improve customer satisfaction and business performance.

Special Exceptions

Jan 2024 – Present

Royal Bank Of Canada (RBC) | Remote

- Responsible for helping complete the bank's many time-sensitive administrative duties, while assessing the quality control of the team's work and any documents coming in and out of the bank.
- On many occasions, I have coordinated my peers and directed them onto queues to prevent backlog.
- I have improved productivity by revising team-specific work procedures and training documents and improved client response rates by revising translations on bank correspondence.

Education

Durham College, Oshawa

- Associate degree in graphic design
- Additional courses related to graphic design

Coursera, Remote

- Certificate in graphic design
- Concentrate on mastering the fundamentals of Figma and Adobe XD

Personal Projects

GoFinance

- GoFinance is an app designed for tablets/iPads with the intention of helping user keep track of their spending habits, Investments, and many more
- This project was created using Figma and a few assets from Matreial.

Fashion.Co

- A website created for a small business with a small audience that wishes to keep in touch with its customers
- This website was made with the intention of helping the designer grow its audience while making the website visually appealing to the eyes.
